

Lecture series in Ecology and Evolution, seminar

Tuesday, 16.15 Uhr / Haller Auditorium, Baltzerstrasse 1

Exam information on Lecture Series in Ecology and Evolution

Fall semester 08		
16.09.08	Sylvia Martinez Swiss Biodiversity Forum SCNAT, Bern	How to be fair and legal when doing research with foreign biological resources: access and benefit sharing according to the Convention on Biological Diversity Gastgeber: Prof. Dr. M. Fischer
23.09.08	Prof. Dr. Claus Wedekind University of Lausanne	Evolutionary Conservation Biology: the example of salmonids in Switzerland Gastgeber: Prof. Dr. R. Arlettaz
30.09.08	Dr. Verena Keller Swiss Ornithological Institute, Sempach	Setting priorities in species conservation - concepts and the example of birds in Switzerland Gastgeber: Prof. Dr. R. Arlettaz
07.10.08	Christian Lexer Fribourg	The genetics of species differentiation in plants Gastgeber: Prof. Dr. L. Excoffier
14.10.08	Dr. Hitoshi Araki Eawag Department of Fish Ecology & Evolution, Kastanienbaum	Evolution versus Conservation? Genetic effects of captive breeding reduce reproductive fitness of a salmonid species Gastgeber: Prof. Dr. O. Seehausen
21.10.08		
28.10.08	Prof. Dr. Dominique Adriaens University of Gent	Extreme feeding specializations in teleost fishes: splendors of evolution Gastgeber: Prof. Dr. M. Güntert
04.11.08	Dr. Yossi Leshem Tel Aviv University	Migrating birds know no boundaries - The Middle East test case Gastgeber: Prof. Dr. R. Arlettaz, Prof. Dr. H. Richner
11.11.08	Mike Bruford Cardiff University	Applying the Orlog model in conservation biology: integrative analysis of the past, present and future of fragmented populations Gastgeber: Prof. Dr. L. Excoffier
18.11.08	Prof. Dr. Markus Fischer IPS, Bern	Large-scale and long-term functional biodiversity research
25.11.08	Prof. Dr. Manfred Ayasse University of Ulm	Chemical ecology in deceptive orchids Gastgeber: Prof. Dr. W. Nentwig
02.12.08	Dr. Patrik Nosil University of British Columbia, Vancouver	Ecological explanations for (incomplete) speciation Gastgeber: Prof. Dr. O. Seehausen
09.12.08	Dr. Harald Auge UFZ, Halle	The dark side of the beauty: how ornamental plants may become invaders Gastgeber: Prof. Dr. W. Nentwig
16.12.08	Volz-Preis	Apéro will be offered
