

Lecture series in Ecology and Evolution, seminar

Tuesday, 16.15 Uhr / Haller Auditorium, Baltzerstrasse 1

HS 07		
02.10.07	Dr. Daniel Rankin Bern	Individual-level conflict, population ecology and the tragedy of the commons Gastgeber: Prof. Dr. M. Taborsky
09.10.07	Dr. Nicolas Ray Bern	Tracking the genetic legacy of past human populations Gastgeber: Prof. Dr. L. Excoffier
16.10.07	Prof. Mary Price University of California, Riverside	It pays to think like a rat Gastgeber: Prof. Dr. M. Taborsky
23.10.07	Prof. Joel Cracraft American Museum of Natural History, New York	Species, speciation, and diversification Gastgeber: Prof. Dr. M. Güntert
30.10.07	Prof. Christian Schlötterer Wien	Using massive parallel sequencing for expression profiling: advantages and limitations Gastgeber: Prof. Dr. L. Excoffier
06.11.07	Dr. Katja Räsänen ETH Institute of Integrative Biology & EAWAG Dept. of Aquatic Ecology	Evolutionary responses to environmental change: moms matter Gastgeber: Prof. Dr. O. Seehausen
13.11.07	Dr. A. Floren University Würzburg	Canopy research: the significance of a neglected habitat Gastgeber: Prof. Dr. W. Nentwig
20.11.07	Prof. Markus Fischer IPS, Bern	Evolutionary plant ecology in the fragmented landscape Gastgeber: Prof. Dr. H. Richner
27.11.07	Dr. Stefan Hertwig Nat.hist. Museum, Bern	On fish and frogs - morphology, molecules, phylogeny Gastgeber: Prof. Dr. W. Nentwig
04.12.07	Prof. Timothy A. Mousseau University of South Carolina/USA	Maternal Effects as Adaptations: Moms Do Much More Than Make Babies! Gastgeber: Prof. Dr. H. Richner
11.12.07	Dr. Jérôme Pellet Conservation Biology, Bern	Issues of detectability in wildlife monitoring protocols Gastgeber: Prof. Dr. R. Arlettaz
18.12.07	Prof. Peeter Horak, Univ. Tartu	Greenfinches, carotenoids and coccidians - a link between health and beauty Gastgeber: Prof. Dr. H. Richner

Guests are welcome!
