

Spring Semester 2019

Group	Date	Speaker	Title
BE	20.02.19	Dr. Josh Van Buskirk University of Zürich website	Adaptation and maladaptation on an elevational gradient
EE	27.02.19	Dr. Matthew Barbour University of Zürich website	From genes to food webs and back again Supporting literature: Barbour 1.pdf (PDF, 1.3 MB), Barbour 2.pdf (PDF, 4.0 MB)
EE	06.03.19	Dr. Dan Jeffries University of Lausanne website	Rapid, non random transitions among the sex chromosomes of true frogs Supporting literature: Jeffries 1.pdf (PDF, 118KB), Jeffries 2.pdf (PDF, 1.1 MB), Jeffries 3.pdf (PDF, 1.1 MB)
BE	13.03.19	Dr. François-Xavier Dechaume-Moncharmont University of Dijon website	Compatibility and emotional bond between partners in a monogamous fish species Supporting literature: Dechaume-Moncharmont_1 (PDF, 501KB); Dechaume-Moncharmont_2 (PDF, 402KB)
BE	20.03.19	Prof. Claus Wedekind University of Lausanne website	MHC-dependent reproductive strategies in horses (and humans) Supporting literature: Wedekind_1 (PDF, 762KB), Wedekind_2 (PDF, 676KB), Wedekind_3 (PDF, 1.4 MB)
EE	27.03.19	Prof. Andrew MacColl University of Nottingham website	Intra- and intercontinental adaptation in radiations of three-spined stickleback
EE	03.04.19	Dr. Brian Hollis University of Lausanne website	Sexual selection and sexual conflict in experimentally-evolving populations of <i>Drosophila melanogaster</i> Supporting literature: Hollis 1.pdf (PDF, 267KB), Hollis 2.pdf (PDF, 888KB)
BE	10.04.19	Dr. Matt Josephson University of Bern website	Understanding genetics of adaptation using genome engineering in stickleback Supporting literature: Doudna Charpentier.pdf (PDF, 1.4 MB), Bono et al.pdf (PDF, 973KB)
EE	17.04.19	Prof. Judith Korb University of Freiburg website	How and why do termite queens live so long? Supporting literature: Korb 1.pdf (PDF, 1.1 MB), Korb 2.pdf (PDF, 348KB), Korb 3.pdf (PDF, 860KB)
BE	01.05.19	Prof. Ton Groothuis University of Groningen website	Hormone mediated parental effects; the neglected role of the male and embryo Supporting literature: Groothuis et al (PDF, 327KB) Kumar et al (PDF, 634KB)
BE	08.05.19	Dr. Bram Kuijper University of Exeter website	Plasticity and parental effects in coevolving populations Supporting literature: Kuijper_1 (PDF, 359KB)
EE	15.05.19	Prof. Trisha Wittkopp University of Michigan website	Development and evolution of <i>Drosophila</i> pigmentation Supporting literature: Wittkopp 1.pdf (PDF, 7.9 MB), Wittkopp 2.pdf (PDF, 487KB)
EE	22.05.19	Dr. Alex Suh Uppsala University website	Evolution and sex-specific and tissue-specific chromosomes in birds Supporting literature: Suh 1.pdf (PDF, 592KB), Suh 2.pdf (PDF, 2.2 MB)
BE	29.05.19	Prof. Sonia Kleindorfer University of Vienna website	Vocal performance in birds shaped by in-nest experience Supporting literature: Kleindorfer et al (PDF, 496KB) Colombelli-Negrel 1 (PDF, 770KB) Colombelli-Negrel 2.pdf (PDF, 284KB)
